

Decoding Peerless Product Model Numbers

MODEL NUMBER GUIDE

FAUCET

While this guide is intended to simplify your model number search, it is not all inclusive. You may find exceptions to the written guidelines, especially when it comes to legacy and retail products in our portfolio. The document is intended to read left to right and then top to bottom.

This example model number is for a [Peerless two-handle bridge model](#) kitchen faucet from the [Westchester® Collection](#), [no-lead compliant](#) with an [oil-rubbed bronze](#) finish.

Colors are used to only coordinate with the reference tables; model numbers are always printed all in one color (typically black). Use the example above as a reference when utilizing the tables in all products. Note that this example product does not have any additional configurations.
